

Formal criteria for abstracts

1. Abstracts must be submitted in English (American English). An exception are the contributions of the category “Onkologische Pflege”, which can be submitted in German.
2. The abstract text may contain a maximum of 1,800 characters (without spaces, but including headings and references).
3. The submitters must use the template placed in the system. The following content structure must be observed: Background, Methods, Results, Discussion, Conclusions.
4. A uniform formatting (no paragraphs and indentations, Arial or Calibri fonts, font size 11) of the abstracts has top priority.
5. The abstract texts may not be submitted exclusively in majuscules (capital letters). This also applies to headings.
6. Illustrations, tables and graphics are not permitted in the abstract.
7. Please note that your abstract will be published as submitted and no corrections can be made. If you have any questions about your abstract after the deadline of 8/31/2023, please write to abstract-dkk@kukm.de.

Guidelines for submission of abstracts

1. Submitted abstracts may be published at other congresses.
2. Abstracts that have already been submitted or published elsewhere may be resubmitted to DKK 2024 with scientific acknowledgement of the source. Submitters must have permission to re-publish from the publication or organizer of the previous congress.
3. Abstracts for marketing purposes or company presentations are not permitted. Scientific work or studies are not affected.
4. Industrial companies: Accepted posters/free presentations may only be presented by the scientifically responsible representative.
5. All submitted abstracts will be reviewed and evaluated. Authors who have submitted abstracts will be informed by e-mail in November 2023 whether their contribution has been accepted.
6. With the submission the authors assume the responsibility for the correctness of the data. The responsibility for the clarification of possible copyrights of third parties regarding the contents of the abstract lies with the authors.
